

FARM EMISSIONS

The Ins and Outs for Livestock Producers

with Cam Nicholson, Nicon Rural Services

AGRICULTURE VICTORIA

VIC CATCHMENTS
A Collaboration of CMAs

Landcare
Victoria Inc.

This workshop will cover:

- *What and who is driving carbon and emissions expectations on farmers.*
- *Carbon farming – what it is and are there opportunities.*
- *Farm emissions and the relationship to productivity.*
- *Farm greenhouse gas accounting.*

As a farmer, agronomist and industry advisor, Cam has exceptional knowledge of and experience in all things carbon and emissions on farm. Cam's insights into supply chains and the practicalities for farmers mean he is one of the best presenters on this subject.

By the end of the workshop, you will know what, why, how and when you should integrate emissions accounting into your farm.
